

FADI BADARNI

Software Engineering Undergraduate

0524183083 • fadybd1@gmail.com • www.devfadi.com • Arraba, Israel

Summary

Self-driven and collaborative software engineering undergraduate with a strong foundation in Java, Python, and JavaScript. Proficient in object-oriented programming, data structures, and algorithms. Eager to leverage problem-solving abilities and web development skills in a challenging internship to develop innovative software solutions and further expertise in software engineering.

Experience

Bridgify

Frontend Developer Intern

08/2023 - 09/2023

- Spearheaded the transition from styled-components to Material-UI, enhancing application responsiveness and design consistency across multiple components
- Improved user experience by introducing interactive features and redesigning UI elements for better usability and visual appeal.
- Simplified codebase by creating reusable components, improving code readability and maintainability
- Optimized state management and refactored components for better performance and streamlined user interactions.

Noviopus

Volunteer Frontend Developer

10/2023 - 12/2023

- Implemented front-end updates meticulously, adhering to project documentation and Figma design guidelines to guarantee compliance with functional and visual design standards.
- successfully addressed and fixed YouTrack issues, making a positive impact on the ongoing enhancement and optimization of web components for a better user experience.
- User interface elements were modified and improved in response to project requirements and design revisions, showcasing adaptability and a dedication to upholding high standards.

Education

Shamoon College of Engineering

BS.c in Software Engineering

09/2020 - Present

Skills

Java • Javascript • Typescript • Python • HTML • CSS/SCSS • C • C++ • React • Spring Boot • Spring Security • PostgreSQL • MySQL • Redux • AWS • Docker • Github • Material-UI • TailWindCSS • OOP • AOP

Projects

El-Yael Website

<https://elyael.com>

Developed and deployed a Comprehensive platform for efficient Yael exam preparation.

- Tech Stack : React, Material-UI, Spring Boot, PostgreSQL, Docker, AWS RDS.

V-Warehouse

Developed a Sophisticated equipment management system for visual communication department.

- Tech-Stack : React, Material-UI, Spring Boot, PostgreSQL.
