Objective

I'm a self-driven, collaborative, and learning-focused undergraduate software engineering student looking for a challenging internship position where i can use my problem-solving abilities, creative thinking and programming knowledge to help develop cutting-edge software solutions while expanding my knowledge of the field of software engineering.

Technical Skills

- Proficient in Java, Python, and JavaScript programming languages
- Strong understanding of data structures and algorithms
- Experience with web design using HTML, CSS, and SASS
- Proficient with software development tools, including VSCode, PyCharm, and
- IntelliJ Strong understanding of object-oriented programming principles

Experience

C LANGUAGE TUTOR, 05/2021 - Current
Shammon College Of Engineering, Beer She'va, Israel

Education

Bachelor Of Science: Software Engineering
Shamoon College Of Engineering - Beer She'va, 10/2020-Current

Certifications

Google Crash Course on Python Certificate, Coursera.

Meta Programming with JavaScript Certificate, Coursera.

Projects

Virtual Warehouse Website
- Created a virtual warehouse website for the department of visual communication @SCE College using spring boot and React JS with PostgreSQL.

Flight Booking System
- Built a flight booking system using ASP.NET, C#, and NoSQL database.
- Developed the front-end using HTML, CSS, and JavaScript.
- Utilized Firebase for authentication and real-time database management.

Password Manager
- Built a password manager using FXML and MySQL database. utlitized SHA-512 password encryption algorithm to store passwords in the database.

Portfolio Website
- Developed a personal portfolio website using React and SCSS, had previous portfolio developed using HTML and JS and CSS.
